

The graph displays the elevation profile of the route. The y-axis represents Elevation [m] from 300 to 1100, and the x-axis represents Distance [km] from 0 to 40. The elevation starts at 260 m at 0 km, rises to a peak of approximately 1100 m around 13 km, dips to about 700 m around 19 km, rises again to a peak of approximately 1050 m around 28 km, and then gradually descends to 260 m at 44.1 km. A red vertical line marks the end point at 44.1 km.
